EXPERIENCE

Web Developer Intern   Jun 2023 - Jul 2023
CCD NITC   *NIT Calicut*

- Significantly improved user interface by achieving a 100% enhancement over the previous website.
- Developed the frontend of a web application using React JS, resulting in a 30% improvement in page loading speed and enhancing user experience.
- Crafted website content highlighting campus' remarkable placement statistics to attract and engage discerning recruiting firms.

Graphic Designer   May 2023 - Present
Freelancer   *Part time*

- Engaged as a freelance designer, I participated in a collaborative venture focused on an intriguing assignment for a YouTube content producer.
- I crafted captivating banner design,elevating their YouTube channel's branding and aesthetic
- Elevated design surpassed original and web development skills recognized.

PROJECTS

Student Learning Tracker Working on a website which track and keeps on eye on student learnings. Had a thought to integrate materials and more useful tools for any student who aims to keep daily streak in studies. This idea came when I realized I dont have a tool to keep track of my learning journey.

YouTube Clone Throughout my journey of replicating YouTube's exceptional UI design, I delved into React and backend tools, gaining valuable expertise in creating engaging user interfaces and powerful web applications.

- Developed a root level knowledge on React and Backend Development
- Covered Authentication, API calls, Organisation level coding and folder structure while developing website.

Basic DEPT I remaked a website characterized by exceptional elegance and impressive functionality, resulting in a seamless user experience using React JS, which helped me in knowing more usage of React JS

Graphic Designer Portfolio Executed a comprehensive project showcasing adept design skills, coupled with proficient utilization of Photoshop and various other design tools, underscoring my extensive experience.

Deplace Maison I skillfully recreated a warm and captivating e-commerce website using HTML, CSS, and JS, mirroring the original design's charm and appeal.

Paryatana I made valuable contributions to this site through open-source collaboration, incorporating meaningful changes that enhance user experience and functionality.

EXTRA-CURRICULAR ACTIVITIES

- Actively contributing to AlgoZenith, Mech Engr Association, and Google Developer Student Club at NITC as a Graphic Designer.

- Recent design and art Works Instagram
